

STATEMENT OF PURPOSE

RS18420

This legislation prohibits motor vehicles equipped with "glass pack" mufflers from operating on the highways of this State. This legislation prohibits the use of such mufflers due to their ability to create excessive noise, which is very disturbing to citizens in their homes and their distraction to other travelling motorists on Idaho roads. This legislation provides for penalties for any person violating the provisions of this legislation, which will encourage law enforcement to enforce the law.
